

Udvalgte danske beskelere

Fertilitet, startprocenter, vinderprocenter og distancer i Danmark og Sverige 1991 - 2001. Fra 2000 også med resultater fra Norge. Medtaget er hingste, der står til opdrætternes disposition i Danmark 2002, og som har en kontinuerlig produktion af en vis størrelse. Desuden er medtaget enkelte øvrige hingste, som forventes at fremstille åringer på auktionen. Der tages forbehold for udenlandske / eksporterede hopper, hvis afkom ikke er registreret i Dansk Stambog for Fuldbold. © H. B. Milling.
